HTC'S EXTRACTION EQUIPMENT ARRIVES AT KASE FARMA'S CALIFORNIA LOCATION

Regina, Saskatchewan - *HTC Extraction Systems* (also the "**Company**" and/or "**HTC**") (**HTC: TSX-V**) (**OTCQB:HTPRF**) is excited to announce that the last of the proprietary extraction and refining equipment arrived on February 1st at its wholly owned subsidiary, Kase Farma Inc. ("**Kase Farma**"), in Ceres, California. The installation and commissioning process are nearing completion stage for a "go live" in March.

The California-based, Kase Farma will be in full operation by March 2020. Kase Farma now has the capability to process up to 12,000 lbs per day of dried biomass; which at a 6% CBD yield will have the capability of producing over 325,000 grams of CBD daily; to be able to deliver the highest quality, saleable CBD to the developing wholesale and white label markets.

Extraction Equipment being lifted off truck in Ceres, CA

Kase will launch its own private brand line of IPElite™ product into the US and international markets as processing, extraction and refining “goes live” shortly. The products will be formulated by two of the industries most recognized formulators, Mike Reynolds and Drew Ford, who are considered formulation pioneers in the medicinal cannabinoid industry in California.

Installation and commissioning of extraction equipment inside Kase Farma.

Kase Farma will be operating one of the largest extraction facilities in the Western US and this facility will be fully operational in 30-days, as the installation and commissioning of Kase’s proprietary extraction equipment is nearing completion today.

Kase Farma is authorized to operate in the areas of hemp cultivation, extraction, refining and formulation in the State of California. Kase Farma continually strives to deliver health and wellness benefits of CBD, CBG, CBN and other cannabinoids, via the production of high-quality, premium hemp products through its proprietary extraction and refining systems.

Kase Farma strives to provide a premium health and wellness product to assist in maintaining an overall health and balance in the body, achieving the best self and reconnection with well being and happiness through a natural, plant-based product. Kase is here to help on everyone’s journey to living life to the fullest.

This press release contains "forward-looking statements" or "forward-looking information" (collectively referred to herein as "forward-looking statements") within the meaning of applicable securities legislation. Such forward-looking statements include, without limitation, forecasts, estimates, expectations and objectives for future operations that are subject to a number of assumptions, risks and uncertainties, many of which are beyond the control of HTC. Forward-looking statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur or be achieved. This press release contains forward-looking statements pertaining to, among other things, the timing and ability of the Corporation to close the Offering, if at all and the timing and ability of the Corporation to satisfy the listing conditions of the TSX Venture Exchange.

Forward-looking information is based on current expectations, estimates and projections that involve a number of risks, which could cause actual results to vary and, in some instances, to differ materially from those anticipated by HTC and described in the forward-looking information contained in this press release.

Although HTC believes that the material factors, expectations and assumptions expressed in such forward-looking statements are reasonable based on information available to it on the date such statements were made, no assurances can be given as to future results, levels of activity and achievements and such statements are not guarantees of future performance.
