

KASE FARMA

## News Release

For Immediate Release

June 26, 2020

### California's Kase Farma Inc, a wholly owned Subsidiary of HTC Extraction Systems - Operational Business Update

**Regina, Saskatchewan – *HTC Extraction Systems* (“HTC”) (TSX-V: HTC) is providing the following operational updates for their wholly owned subsidiary, Kase Farma Inc. (“Kase Farma”) in Ceres, California.**

Kase Farma is excited to announce that extraction and formulation equipment has been successfully installed and commissioned and they are operational. Extraction, formulation and refining began at the Ceres, California facility on May 10, 2020.

Production for the wholesale and retail markets is currently taking place and Kase Farma is launching their first CBD product, **Kase One**; based on the theme **“One Life; One Plant”**.

Kase One has been formulated with outdoor grown, organic, superior genetic hemp, sourced from IPGrowers™ in Santa Cruz, California. Kase Farma prides itself in providing their customers with full transparency as to the IP plant origin of their products and the integrity, science, and full transparency in the extraction and formulation of Kase One; bringing accountability and verified quality to the cannabinoid industry.

## ***“California Innovation”***

*“Achieved through licensing proven and industry recognized best technologies.”*

*“Capturing a rich history and pedigree of extracting and formulating in California.”*

This is an exciting time for Kase Farma, as they introduce the Kase One product brand and engage in their white label business development strategy, solidifying their strong future in the cannabinoid industry.

Kase Farma’s, IPGrow team, is working with EnviroCann on their EnvirOrganic Certification. EnvirOrganic is comparable to organic certification that protects the integrity of crops and products throughout the supply chain. To qualify producers must demonstrate compliance through documentation of best practices and routine inspections throughout the certification year, with pesticide residue and heavy metals testing built into the program. Other aspects included in the certification is demonstrating a commitment to social justice, through worker health and safety, compensation and community outreach. Kase is proud to be working towards this certification as it defines who they are and focuses on product integrity.

Kase Farma strives to provide the premium health and wellness products to assist in maintaining an overall balance in body and mind. Kase One is specifically formulated with premium ingredients sourced thoughtfully in California and around the world. Kase Farma is here to help on everyone’s journey to living life to the fullest.

Kase Farma is authorized to operate in the areas of hemp extraction, refining and formulation in the State of California. Kase Farma continually strives to deliver health and wellness benefits of CBD, CBG, CBN and other cannabinoids, via the production of high-quality, premium hemp products through best of class methods, while sustaining an unrelenting commitment to people, community and the environment.

**NEITHER THE TSX VENTURE EXCHANGE NOR ITS REGULATION SERVICES PROVIDER (AS THAT TERM IS DEFINED IN THE POLICIES OF THE TSX VENTURE EXCHANGE ACCEPTS RESPONSIBILITY FOR THE ADEQUACY OR ACCURACY OF THE RELEASE.**

*This press release contains "forward-looking statements" or "forward-looking information" (collectively referred to herein as "forward-looking statements") within the meaning of applicable securities legislation. Such forward-looking statements include, without limitation, forecasts, estimates, expectations and objectives for future operations that are subject to a number of assumptions, risks and uncertainties, many of which are beyond the control of HTC. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects", "plans", "anticipates", "believes", "intends", "estimates", "projects", "potential" and similar expressions, or that events or conditions "will", "would", "may", "could" or "should" occur or be achieved. This press release contains forward-looking statements pertaining to, among other things, the assumption that crops will yield viable amounts of hemp for CBD oil extraction, that tolling agreements will be entered into and synergy of technology will occur.*

*Forward-looking information is based on current expectations, estimates and projections that involve a number of risks, which could cause actual results to vary and in some instances to differ materially from those anticipated by HTC and described in the forward-looking information contained in this press release.*

*Although HTC believes that the material factors, expectations and assumptions expressed in such forward-looking statements are reasonable based on information available to it on the date such statements were made, no assurances can be given as to future results, levels of activity and achievements and such statements are not guarantees of future performance.*
